VOLUME 42, NO. 26-2251 BOWLING GREEN, KENTUCKY WEDNESDAY, JULY 3, 1963

Board Of Regents Approves Record Budget For 1963-64

Western began operating under its largest budget in history on July 1 — a total of \$3,808,138 for the fiscal year 1963-64.

The record-breaking budget was approved by the Board of Regents on May 23.

Growth and expansion at Western in all phases of operation are reflected in this history-making budget.

Western took over the academic operation of the Bowling Green College of Commerce on June 1 as approved by the Board in a consolidation of the two institutions.

Expanded Curricula

When the summer school registration opened on June 10, Western began offering an expanded curricula in accounting, business administration and secretarial

science. The associate of arts and the certificate curricula in these fields was retained by Western.

These study programs will be available through the Community College Division as well as the regular college classes.

A loan agreement with the Federal Housing and Home Finance Agency for federal funds to construct the new women's dormitory now under construction on the Kentucky Building Grounds was approved. Cost of the five-story dormitory will be \$844,959.64.

A system of faculty rank to include professors, assistant and associate professors and instructors, along with recommendations concerning faculty tenure, was approved at the meeting.

Hours of college credit for classification as sophomore, junior,

and senior were increased by four at each level.

Point Standing Scale Raised

Quality point standing for students beginning with the school year starting in September will be figured on a 4.0 scale instead of the 3.0 scale now in effect. Honor students will be designated as summa cum laude, magna cum laude, and cum laude.

Members of the freshman, sophomore, and junior classes will be recognized each semester for high academic achievement. Students achieving a point standing of 3.3 to 3.8 during a semester will be honored by being placed on the Dean's List. Students with standing of 3.8 to 4.0 will be recognized as President's Scholars.

Outstanding scholarship achievement will be recognized in a special convocation to be held each year. Juniors with the highest cumulative grade average will be given special recognition.

Miss Runner Honored

Freshman Days Begin In Stadium At 8:00 a.m.

Western will begin its 57th year of operation when it opens the 1963-64 fall semester with freshman orientation and registration Monday, September 16, during General Assembly in the Stadium at 8:00 a.m.

Upperclassmen and graduate students will begin registration at 9:30 a.m., Thursday, September 19, and will continue through Friday, September 20.

Those registering for Saturday classes and graduate night classes will begin with General Assembly in Van Meter Auditorium at 7:45 a.m., Saturday, September 14. ALL SATURDAY CLASSES WILL HOLD FIRST MEETINGS ON THIS DATE.

Classes will convene at 8:00 a.m., Monday, September 23.

Information

Students planning to enter Western for the first time may obtain application forms from the office of Dero G. Downing, Dean of Admissions. The college catalog and additional information may be secured by writing to

President Kelly Thompson, Western Kentucky State College, Bowling Green, Kentucky.

During the general assembly program, freshmen will be counseled as to the general purposes and educational opportunities of Western. Group testing will be followed by individual counseling in the arranging of class programs.

Student Housing

Information concerning student accommodations for the fall semester may be procured by writing to Hubert Griffin, Director of Housing. The college will assist students in both on-campus housing in dormitories and off-campus housing in rooms and apartments.

Saturday, September 28, is the last day a student may register for a full load. Wednesday, October 2, is the last day one may enter a course for credit with a reduced load. Monday, October 14, has been designated as the last day on which a course may be dropped without a grade.

Scheduled Holidays

Thanksgiving Holidays begin Wednesday, November 27, at

Ben Reeves To Speak At Summer Commencement

Ben F. Reeves, managing editor of the Courier-Journal, will deliver the summer commencement address at Western Kentucky State College, according to an announcement by Dr. Kelly Thompson, President of Western.

The commencement exercises which mark the 88th graduation program in Western's history will be held in the Western Stadium at 7:30 p.m. (CST) on Friday, August 2.

A native of Bowling Green and Warren County, Reeves is one of the most outstanding young newspapermen in America. He was elevated to the managing editorship of the Courier-Journal in 1961 after serving as a reporter for the newspaper since 1962.

While a reporter for the Courier-Journal he served in both the Washington and Frankfurt bureaus, and traveled extensively in the state as a political writer. In 1963 he was awarded an American Political Science Fellowship to study Congress for a year in Washington.

Reeves, the son of Mrs. Marguerite H. Reeves, Bowling Green, was graduated by the University of Kentucky in 1949 'with high distinction' and with departmental honors in journalism. He was elected to Phi Beta Kappa, America's oldest learned society, in 1949. During his college days he was editor of the Kentucky Kern-

BEN F. REEVES

ek, the university's campus newspaper. He did graduate work at Kentucky in political science in 1950.

As a reporter, Reeves has been accustomed to explosive situations — covering everything from atomic bomb tests in Nevada, to the shooting of six members of Congress by Puerto Rican nationalists in 1954.

Prior to joining the Courier-

Theatre Set To Stage Three Productions

With a membership of over fifty persons, Western Summer Theatre '63 is working on three productions. At the organizational meeting June 12, Patti Peete Gillespie, a graduate student from Franklin who teaches at Russellville High School, was elected president. Other officers elected were business manager, Jean Topmiller Gosnell, graduate student from Bowling Green who now resides in Aloha, Oregon; public relations, Maurice Utley, graduate student from Portland, Tennessee who teaches at LaRue County High School in Hodgenville; and secretary, Bette Miller, senior English major from Simpsonville.

Members of the advisory board are Randall Capps, member of Western's English faculty, Hershel Welsh, senior math major from Madisonville, and Allen Miller, junior from Sacramento. Dr. Russell H. Miller is the sponsor of the group and is the producing director.

Many members of the group are working with Dr. Miller in the Shaker Festival pageant, *Shaker-town Revisited*, which will be presented at the Auburn High School Gymnasium July 9-13.

On July 17-19 the group will present Agatha Christie's newest mystery, *The Unexpected Guest*, at the Snell Hall Auditorium at 8:15. Starring in the thriller are Patti Gillespie and Charles

Oliver. Other members of the cast include Mary Ray Oaken, Allen Miller, Myriel Hawks, Ann Daniel, John Hendricks, Hershel Welsh, Tom Higginson, and Bob Fields.

The third production, Truman Capote's *The Grass Harp*, will be presented at Snell Hall Auditorium on July 24-26 at 8:15. The conflict between the realist and her mystical sister is set in a southern community.

There are twenty-seven members on the cast.

In addition to these productions, the group is planning to go to Nashville on July 27 to see the Nashville Circle Players' production of *Come Blow Your Horn*. Trips to various open-air dramas are also being considered.

CONSTRUCTION of Western's new Academic-Athletic Building is nearing completion as the opening of the fall semester on September 16 draws closer. The huge structure, to be ready for occupancy in the fall, will house three major departments, the 8500 seat E. A. Diddle Arena, and numerous offices and exercise rooms.

11-Story Dorm And A-A Building To Be Occupied With Fall Opening

With the opening of the fall semester on September 16, Western will realize the completion of two goals which only further mark the never-ending progress significant of the Hilltop campus. Ready for occupancy this fall will be the Academic-Athletic Building and the new 11-story dormitory for men.

Beginning work in the A-A building in September will be the Foreign Languages, Military Science, and Physical Education departments.

In addition to the classrooms,

the building will contain an Olympic-size swimming pool, office facilities for faculty members, an auxiliary gymnasium, dressing rooms, and storage areas.

The most publicized feature of the building is the E. A. Diddle Arena which will be officially dedicated Saturday, December 7, during the game with Vanderbilt University.

The arena will seat 8,500 as it opens, but can be expanded to 13,000-seat capacity with no structural changes. A portable stage will make the arena suitable for use as an auditorium for large

meetings, theatrical and musical productions.

The new men's dormitory is the tallest building in southern Kentucky. The tenth major building constructed on campus in the past 7 years, the huge structure will provide bedroom space for 410 men, apartments for the director, and central elevator service. The building will be fully air-conditioned.

This dormitory is to serve as an anchor for future buildings to be constructed around the eastern sector of the campus in the same architectural motif.

Superintendents To Meet On Western Campus

Western's 29th annual Summer Conference for Superintendents will be held this year on Friday, July 19, according to an announcement by President Kelly Thompson. The Conference will convene in Van Meter Auditorium at 1:30 p.m. (CST). The Conference has been designated an official meeting by State Superintendent of Public Instruction Wendell P. Butler.

James Allen, superintendent of Meade County schools, will preside. Superintendent Allen is president of the Conference this year.

A progress report on educational television in Kentucky will be given by Don C. Bale, secretary and treasurer of the Kentucky Authority for Educational Television.

Superintendent Butler will address the Conference and a report from the Kentucky Education Association will be given by Dr.

Marvin Dodson, executive secretary of the KEA.

Dr. Thompson will open the Conference with a greeting from Western. The election of new officers for the coming year will be the final part of the Conference in Van Meter Auditorium.

The old fashioned fish fry which is held each year in conjunction with the Conference will start at 4:30 p.m. on the Kentucky Building Grounds.

Letters of invitation to the Conference will be mailed to all superintendents in Kentucky from President Thompson's office next week. Program for Western's 1963 Summer Conference for Superintendents

Friday July 19, 1963 1:30 p.m. Presiding.....Mr. James Allen President of Conference Superintendent, Meade County

Building To Achieve...

By SANDRA STUART

Progress now seems as much a motto of Western as does "The Spirit Makes the Master." Wherever one goes on campus he sees evidence that Western is marching forward. Not only is there construction as shown by the A-A Building and 11-story dorm, but there is reconstruction as in the Heating Plant.

Progress, such as that at Western is a continual process. Structures are not built, used for a few years, then torn down and replaced by larger ones. No, when there is need for larger and more modern facilities the college makes one of two decisions. A new building is constructed and the older one used in another capacity, or the older one is enlarged and reconstructed to meet the needs of the ever-growing population.

At first consideration this sounds simple, however on closer observation one realizes that such decisions do not just occur. Often it is taken for granted—the fact that we are constantly marching forward — and little thought is given to the diligent planning which takes place before the public becomes aware that something new is to be added or something old modernized.

It is only human for individuals to be inappreciative of the things with which they are blessed. But, why be human?

If all movement, construction and reconstruction, was to cease on the Hill, Western's administration would naturally be highly criticized. It is wondered, though, just how often these people are commended for the fine work they are forever doing.

It is true that "The Spirit Makes the Master," but it should be realized and remembered that it takes understanding and appreciation to develop the Spirit.

*Tuition for an out-of-state student is \$750.00 per semester.

**Payable only one time during college year.

***To be paid in advance for one semester.

Maintenance Dept. Keeps Campus Looking Good

By Harold Wood

All one needs to do is to walk over the campus, or watch the busy maintenance employees, to understand why Western maintains one of the best-looking campuses in the country.

The Maintenance department includes 10 departments within itself: Plumbing and Heating, Electric, Receiving and Shipping, Landscaping, Painting, Utility, and Carpentry. The Maintenance department performs approximately 600 routine repair jobs a month to keep the campus in its fine condition.

Various Jobs Listed

The following is a list of various jobs performed by the maintenance men: a campus utility map was made and placed in front of the library; preparing, classifying, and arranging all campus and building blueprints; repairing and resurfacing of the gymnasium floor; repairing and reconstruction of Training School equipment; removal of houses and clearing of site for the new academic - athletic building; repairing and building new sidewalks which help in keeping the grass in better condition; putting the name letters on the front of all buildings on campus; complete calking and repainting of the swimming pool; repainting the inside of White Stone Hall; repairing of wall coverings and blinds at the Student Center; repairing and painting the entire building of Van Meter Auditorium; repainting and redecorating the new Home Economics Practice House; extension of some water and electric lines; repairing and reconstruction of fuel tank racks for the houses in Vets Village; repairing and resurfacing of roofs on the houses in Vets Village; oiling and repairing the road in Vets Village; raking leaves and picking up trash which litter the campus lawn; repairing and repainting the doors and concession stands in the gymnasium for the on-coming season's basketball games; repairing of

the seats in the Little Theatre of the Library.

Other Duties

Among other jobs which are taken care of by the Maintenance department are: resurfacing of the tennis courts, building and construction of the new baseball field; construction which goes on at the school farm; regrading, filling, and leveling a number of washed areas; clearing the campus streets and sidewalks of snow during the winter months; some areas sown with grass, others sodded; shrubs and trees planted over the entire campus; construction of portable "no parking" signs; acquisition of considerable "surplus property" and distribution to various departments, such as agriculture, science, physical plant, and industrial arts; picking up of all trash from all buildings on the campus; removal of many dead and damaged trees from the campus; repairing roofs, chopping downspouts, and guttering on a number of buildings on the campus; repainting a number of offices, classrooms, and dormitory spaces.

54 Regular Employees

The Maintenance department employs approximately 54 regular maintenance and custodial employees and approximately 12 college students. The department helps a few college students by giving them part-time jobs while going to school at Western.

The only changes that have taken place in the Maintenance department over the last two or three years have been in the reorganization of the administrative staff. Mr. L. T. Smith has been appointed physical plant administrator of construction of new buildings on the campus; Mr. O. C. Lawson has been appointed assistant director of buildings and grounds. The Maintenance department has also received a \$175,000 electric and steam line addition for the new academic-athletic building and the new eleven and six-story dormitories.

Book Marks

By MARTHA RASCOE

Now that hot weather seems to be here, perhaps you are looking for a "cool" place to relax. The air-conditioned Science library may be just the spot, especially if you want to study. The library is the place if you are desiring a quiet atmosphere in which to study. Even the color scheme of pale green is conducive to quietness.

As you enter the library, you will notice the paneling to your left. It was cut from a bald cypress tree which grew on the site of Thompson Hall. The cypress was felled in the summer of 1960 after having stood sentinel on the Oden Campus for more than one hundred years.

Another "eye-catcher" of the Science library is the colored, over-head pipes, which range in color from blue, green, gold, to orange. Each color signifies the chemical that passes through the pipe.

The Science library is more than a pleasant and quiet place to study and relax, it is the perfect accessory to research work, particularly in the fields of biology, chemistry, physics, and agriculture.

The library contains the Biological Abstracts on microfilm, approximately 100 periodicals and journals, the McGraw-Hill Encyclopedia of Science and Technology, and the 1962 Yearbook. The McGraw-Hill series contains 15 volumes. The Applied Science and Technology Index is a publication very similar to the Readers Guide. This index is quite helpful in research work.

Approximately 14 new journals and periodicals have been added to the library since October 1962. Along with the new publications the library is receiving back issues of missing volumes of certain journals are being obtained.

Some books the library has received recently are: Einstein's Theory of Relativity, by Max Born; Concepts of Classical Optics by John Strong, Handbook of North American Birds, by Ralph Palmer; and Nuclear Physics by Irving Kaplan.

Since October the library has received more than 225 new books

bringing the total number of books available in this library to 1,650.

Handling of Chromosomes is a joint effort of Darlington and La Cour. Another journey into the invisible parts of nature is taken in The Bacteria. This book is the product of Irwin Gunsalus. A. I. Vogel has published a helpful book, Practical Organic Chemistry, in that it illustrates to students correct procedures for setting up laboratory equipment.

As so much emphasis has been placed on space travel recently, perhaps you will enjoy Space Astrophysics. This is a compilation of lectures which were delivered at the University of Michigan. The text covers nearly all of the recent advances in this field. It attempts to give a detailed description of the first astronomical experiments made from artificial satellites and space probes. Given also are some of the theoretical investigations that have gone along with these experiments.

If at any time between the hours of 8 a.m. and 9 p.m. Monday through Thursday, 8 a.m. to 4:30 p.m. on Friday, or 8 a.m. to 11 p.m. on Saturday, you want a quiet, cool place to study, relax, or do research work, try the Science library. You are sure to find not only all of the preceding assets, but also a very helpful and pleasant librarian will be on hand, either Miss Neel or Mrs. Durham.

Evening Reading Planned July 9

Members of Western's Department of English will present "An Evening of Readings" in Snell Hall Auditorium at 8 p.m. on Tuesday, July 9.

Some of those on the program are Dr. Willson E. Wood, Miss Frances Richards, Miss Mary Ellen Pitts, Mrs. Frances Dixon, Terry Otten and Robert J. Wurster.

They will read from their favorite selections of poetry, both old and modern, and prose.

The program will be open to the public and free of charge.

HILLTOPICS

by SANDRA STUART

Enrolled in summer school is a total of 2,304 students. This is the largest summer enrollment for a complete summer session in the history of Western. Though the days and classes are hot and long, don't lose interest. To give up now could mean disaster during final week.

Hilltopic

Purchase a copy of "The Himalayan Kingdoms: Bhutan, Sikkim, and Nepal" on sale at the College Heights Book Store for only \$1.45. An informative book, the co-authors are Dr. William M. Jenkins Jr., head of the Department of Business and Government, and Dr. Pradyumna P. Karan, associate professor of Geography at the University of Kentucky.

Hilltopic

Those persons who attended Chapel last Wednesday received a delightful treat. 'Doraine and Ellis', well known husband and wife team, presented a program of familiar selections from Broadway musicals. Their sincere personalities endeared them to the audience.

Hilltopic

The Herald extends congratulations to August graduates. It is hoped that these graduates will enjoy success as they journey from Western's portals.

Hilltopic

The Fall Semester officially begins September 10. Don't be one of those persons burdened with too many last minute preparations. Begin now, and plan. It will save time in the long run.

1963 COLLEGE CALENDAR 1964

First Semester

September 14, Saturday, 7:45 A.M.	Registration for Saturday classes and Graduate Night classes begins with General Assembly, Van Meter Auditorium. All Saturday classes will hold their first class meeting on this date.
September 16, Monday, 8:00 A.M.	Freshman Days begin with General Assembly, Western Stadium. Testing, orientation, and counseling continue throughout the week.
September 19, Thursday, 8:00 A.M.	Registration of upperclassmen begins following the registration schedule through Friday, Sept. 20.
September 23, Monday	Classes begin.
September 28, Saturday	Last day to register for a full load.
October 2, Wednesday	Last day to enter a course for credit with a reduced load.
October 14, Monday	Last day on which a course may be dropped without a grade.
November 27, Wednesday, 12:00 noon	Thanksgiving Holidays begin.
December 2, Monday	Classes resume.
December 18, Wednesday, 12:00 noon	Christmas Holidays begin.
January 2, 1964, Thursday, 8:00 A.M.	Classes resume.
January 25, Saturday	Final examinations in Saturday classes.
January 27-30, Monday through Thursday	Final examinations, Semester ends.

Do You Know...?

By GEORGE

—That in 1912, students were allowed to camp out on Western's campus during summer school? Arrangements were made for women who desired to live in tents.

—That the Cherry Hall School of Philosophy, located in Williams Dormitory (later christened Cherry Hall), was a group of boys who went upstairs after dinner and "settled all matters of importance in heaven and earth"?

—That besides being the oldest football coach, in years of service, in the O.V.C., Frank Griffin has raised the intramural program at Western to a point where it is now a very important part of the student's life?

—That in 1961 Western's football mentor, Nicholas George Denes, was selected as the O.V.C. COACH OF THE YEAR? Coach Denes is now in his 33rd year in the coaching profession, and before coming to Western he guided Louisville Male High School to the state football championship. As a result he was named high school, 'Coach of the Year.'

FINAL EXAMINATION SCHEDULE SUMMER SESSION 1963

Final examinations will be held on Thursday and Friday, August 1 and 2. The test periods will be as long as two hours in length and will follow the schedule below.

AUGUST 1 — THURSDAY

7:30 CST	Final test in classes regularly meeting at 7:30 a. m. CST
10:30 CST	Final test in classes regularly meeting at 10:30 a. m. CST
1:30 CST	Final test in classes regularly meeting at 1:30 p. m. CST

AUGUST 2 — FRIDAY

7:30 CST	Final test in classes regularly meeting at 7:30 a. m. CST
10:30 CST	Final test in classes regularly meeting at 10:30 a. m. CST
12:00 noon CST	

20 New Faculty Members Join College Staff

Twenty additions to Western's 1963-64 faculty and staff have been announced so far by Dr. Kelly Thompson, president of the college.

Dr. William J. Harkins, Francis A. Morrell, Henry M. Spottswood, J. C. Holland, James E. Davis and Miss Gloria Young will join the Department of Business and Government.

Harkins, Morrell and Spottswood will assume their duties on Sept. 1; Holland, Davis and Miss Young joined the faculty on June 1.

Dr. Harkins will come to Western from Gonzaga University in Spokane, Wash., where he has served as a member of the faculty in the Department of Political Science since 1960.

In 1950 he was awarded the LL. B. degree by the Atlanta Law School and passed the Georgia bar examination the same year. He was graduated by Colgate University in 1943 with the Bachelor of Arts degree, majoring in political science.

Dr. Harkins was a teaching assistant at Emory University in 1959. He taught at Georgia Tech in 1960 prior to joining the faculty at Gonzaga.

He and his wife have two daughters, ages 12 and 14.

Morrell will complete work for the Master of Arts degree at the University of Florida in August, with a major in accounting and minors in economics and management. He was graduated by the University in Florida in 1953 with a Bachelor of Science degree in Business Administration. He was employed by the Florida State adding department until 1955 when he transferred to the Florida State Comptroller's office, department of banking, as assistant state bank examiner.

In 1957 he became vice-president of the Dania Bank, Dania, Fla. He resigned that position in September, 1962, to begin work toward the graduate degree.

Spottswood was awarded the Master of Arts degree by Georgia Tech, with a major in Industrial Management, in June of this year. He was awarded the Bachelor of Science degree by Georgia Tech in 1962. He is a native of Mobile, Ala.

Holland will serve as a lecturer in accounting. He taught accounting at the Bowling Green College of Commerce for 30 years before coming to Western. He is the senior partner in Holland, Sneed and Company, a Bowling Green Accounting firm.

He received the Bachelor of Science degree from the College of Commerce in 1929 and the Master of Business Administration degree from Northwestern University in 1934. He holds Certified Public Accountant certificates in both Kentucky and Tennessee.

Holland has been Warren County Auditor for several years and is a member of the Board of Directors of the Citizens National Bank.

Davis, a native of Tennessee,

has been a member of the faculty of the Bowling Green College of Commerce for the past year. Before that he was on the faculty of the University of Miami, Coral Gables, Fla., in the Department of Business Education. He was at Miami for 14 years and was chairman of the department from 1957 until 1960.

He was awarded the Bachelor of Science degree by the University of Tennessee in 1948 and the Master of Science degree in 1955.

Miss Young will teach half-time in secretarial science and will devote half of her time to secretarial work. She has been an instructor in the Secretarial Science Department of the College of Commerce for the past two years. At the same time she was a part-time instructor in Western's Community College program.

Miss Young is a native of Russellville, Ky., and holds both the Associate of Arts degree in Secretarial Science and Bachelor of Arts degree from the College of Commerce.

—REGISTRAR'S OFFICE—

Miss Nina Hammer has been employed as a member of the staff of the Registrar's Office, assuming her duties on June 1.

She has been Registrar at the Bowling Green College of Commerce for the past 25 years. She first joined the staff there in 1921, serving as secretary to the president.

A native of Elkton, Va., Miss Hammer attended Madison College in Harrisonburg, Va., and graduated from the Bowling Green College of Commerce with

the Bachelor of Arts degree in 1931.

—BIOLOGY—

Jeff Harlin Jenkins, Mrs. Irene Erskine and Dr. H. Randolph Richards will join the faculty of the Department of Biology in September.

Jenkins is presently completing work toward the doctorate at Louisiana State University. He was awarded the Master of Science degree in plant pathology, by Louisiana State in 1961 and has been a graduate assistant there since he entered in 1959. He was an honor graduate of Western in 1959 when he was awarded the Bachelor of Science degree with a major in agriculture.

Mrs. Erskine was awarded the Bachelor of Science degree by Western in 1953 and the Master of Arts degree in 1954. She has taught biology in the Bowling Green City school system since 1957. She was honored as Kentucky's outstanding biology teacher in 1962 and was named Bowling Green's outstanding women by the Bowling Green Business and Professional Women's Club in 1962. She served as a clerk in the Registrar's Office in 1954.

Dr. Richards will work in the Department of Agriculture as well as the Department of Biology.

A native of Warren County, he was awarded the Bachelor of Science degree by Western in 1953 and the Master of Science degree by the University of Wisconsin in 1954. He received the Ph. D. degree in agronomy from Purdue University in 1960. He has spent six years at the Kentucky

Agricultural Experiment Station in Princeton, Ky., doing research work with farm crops.

MATHEMATICS

Edward S. Ebbert and Mrs. Hope C. Siskham will join the Department of Mathematics.

Ebbert will come to Western from Florida State University where he has been doing graduate work toward the doctorate degree in mathematics education.

A native of Birmingham, Ala., Ebbert attended Vanderbilt University before entering the U. S. Army in June, 1943. He returned from service in the South Pacific in 1945 and entered Auburn University where he was graduated with the Bachelor of Science degree in mechanical engineering

in 1949. He was awarded the Master of Science degree in Education Administration by Auburn in 1954.

He taught in the high schools of Alabama, Georgia and Illinois before joining the faculty at Wisconsin State College, Superior, Wis., in 1957. He became a member of the faculty at St. Petersburg, Fla., Junior College in 1960 and also taught night classes at the University of South Florida.

Mrs. Siskham presently holds a teaching fellowship at the University of Kentucky where she is completing work toward the Master of Arts degree in mathematics. She will receive the M. A. degree in August. A native of

IT'S ON THE SQUARE

STUDENT LOANS for residents of Muhlenberg County attending Western are made possible through the Student Loan Fund sponsored by the Muhlenberg County Western Alumni Association. Mrs. Bernadine Steele, of the Association, is shown accepting a receipt for \$100 to be added to the loan fund. Presenting the receipt are Mr. Dore Downing, Dean of Admissions, left, and Mr. Lee Robertson, director of Alumni and Placement.

Loan Fund Will Receive Muhlenberg Fair Proceeds

The Western Alumni Association of Muhlenberg County is sponsoring the Muhlenberg County Fair, to be held at the Fair Grounds in Central City beginning tonight and continuing through Saturday night, July 6.

All proceeds of the fair will go to the Association's 'Loan Fund.' The Loan Fund is one set aside to aid Muhlenberg County students who wish to attend Western, and for those who after attending Western go into specialized training at another institution.

Mrs. Bernadine Steele, MA '58, chairman of the Loan Committee, stated that a board is to be organized to which a Western alum-

nus from each school in Muhlenberg county will be appointed. The principals of the schools will recommend deserving students to the board for its approval.

The Muhlenberg County Alumni Association was organized in 1957 as a direct result of an in-service training class taught by Dr. Mary I. Cole. It meets annually on the date nearest possible to the anniversary of the inauguration of Dr. Kelly Thompson as president of Western. President Thompson and other Westerners always attend the meetings.

In compliance with the wishes of the members, meetings are informal and no dues are required.

Members of the organization contribute to the Loan Fund which is cared for by the College Heights Foundation.

Stickles' 'Buckner' In '63 Britannica

Dr. Arndt M. Stickles, Emeritus Professor of History at Western, is one of the 1,350 new contributors to the 1963 Encyclopedia Britannica.

Dr. Stickles, whose article "Simon Bolivar Buckner" appears in the new edition, completed 46 years of active service at Western. He joined the History department staff as head of the department in January, 1908, one year after Western opened its doors as a state supported college. At the time of his retirement, his years of service at Western stood as a national record for a professor at the same accredited institution of learning.

Among the more than 9,000 contributors to Encyclopedia Britannica are 39 Nobel Prize winners and 32 winners of the 35 Pulitzer Prizes, in which is included President John F. Kennedy.

18th FHA Meeting Held On Campus

The 18th state convention of the Future Homemakers of America met on campus June 4-6, with some 800 FHA members and advisors from throughout the state in attendance.

With "Future Homemakers Promote Education" as their theme, the convention officials set up six goals for the convention. They were: 1. To develop greater concern for education; 2. To recognize the values of education for homemaking, citizenship, and self-development; 3. To obtain ideas for working on National Projects; 4. To participate in carrying on the business of the organization; 5. To take part in recreational activities; 6. To get acquainted with other FHA'ers.

Highlight of the convention came with the election and installation of new officers, and the conferring of state homemaker degrees to 240 future homemakers. Serving as state president during 1963-64 will be Glenda Sue Cart of Meade County High School.

Robert G. Cochran, Western's Director of Public Relations, served as Co-ordinator of arrangements for the convention.

College High Students Will Receive Awards

A certificate of educational development will be awarded to sixteen College High students at the beginning of the 1963 fall term.

This award is given by the Science Research Associates, Inc. in recognition of outstanding performance on the spring, 1963, National Educational Development Tests. This award reflects credit both to the students and to the school.

Those receiving the awards are: John H. Carpenter, Nancy K. Claypool, Paul E. Gerard, Wayne K. Graham, Edward F. Erick, Judy J. Mayfield, James H. Mercer, Georgeanne Slea-maker, Kelly D. Thompson, Walter A. Ward, sophomores; and Dottie R. Hild, Mary A. Hill, Carol E. Milliken, Allison J. Oredorf, Carole S. Owen, and Carolyn D. Siddens, juniors.

NRTA Meet Held

A retreat conference on dynamic retirement sponsored by the Kentucky Retired Teachers Association was held on campus June 24-28.

Approximately 300 persons attended the conference, local arrangements for which were made by Mr. E. H. Canon, Registrar Emeritus of Western.

Reeves To Speak

Western Founder Revolutionized Public School System

By Libbie Thompson

"I have always lived among the crowd, and if it were left to me to decide, I would prefer to stand among the throng of students as they go to and from Cherry Hall." There Dr. Cherry stands, but few students can connect the stately bronze statue with a living man who once walked the very same halls. It is even more difficult to associate this distinguished man as an uneducated farm boy who worked his way up, and functioned to assure each boy and girl of Kentucky a good education.

Henry Hardin Cherry was born on a stony farm in the sand hills of Warren county near Barren river on the same day, November 16, 1864, that Sherman started his march of 60,000 men from Atlanta to the sea. He was the seventh of nine sons of a pioneer family rich in strength but poor economically. The boys helped their father cultivate the farm. On one occasion, according to local tradition, Henry and an older brother took a wagonload of potatoes into Bowling Green to be sold. On their rounds, they stopped at the Potter Female College. While the other boy watched the oxen, Henry carried a basket of potatoes into a classroom where recitation was being held. The girls and the teacher laughed as the bashful country boy naively asked, "Want to buy any potatoes?" Henry backed out of the room and ran to the wagon. He was later to walk into that same room as president of the Southern Normal School.

Education

Until he was twenty-one, his education consisted of two or three months of schooling annually, and his own reading. When he was twenty-one, he earned \$72 doing odd jobs, and walked eight miles to Bowling Green to enter the Southern Normal School. He rented a cheap room, cooked his own meals, and managed to

stretch the money 10 months. While in school, he studied mostly business subjects and practice of penmanship. When the money was gone, he established a "writing school" in the evenings at a country schoolhouse. Then, he returned to Bowling Green as an instructor, and never left.

Dr. Cherry Builds

In 1892, when Henry was 28, he and his brother, T. C., took over the management of the Southern Normal School. For the next ten years, they worked to build the school. Advertising was responsible for much of their early success. They said, "We boasted everything on paper though we didn't have much in fact." Under their administration, a small private school with 78 students grew into the second largest school of its kind in the South. The skepticism of the local townspeople changed as the growth of the student body made the school an asset to the economy of the community.

In 1895, Miss Bessie Fayne enrolled in the Southern Normal College, and in 1898, she was married to Cherry. They had three children.

To College Status

In 1906, the legislature by official act reorganized the Southern Normal School into the Western Kentucky State Normal School. In 1911, it was transferred to its present site on the Hill. The Col-

lege bought the grounds of the Potter College, which was losing out to the new school. In 1922, 18 years later, the new school was given full college rating with the authority to grant A.B. and B.S. degrees. In 1933 and 1934, it was the largest college of its kind in the United States.

Henry Hardin Cherry was a builder. He revolutionized the public school system in Kentucky. The country school term became eight months in length, qualifications and salaries of teachers were raised, and the log schoolhouse was replaced by a comfortable building.

He was granted an honorary degree of Law by the University of Kentucky in 1917.

He was a member of the KEA for forty-five years, and was its president twice.

Active Public Life

He was active in public affairs, and in 1919, he announced himself as a candidate for governor after the Democratic primary. He withdrew because of illness.

Among his distinguished students was Cordell Hull of Tennessee, a former Secretary of State.

He organized the Farmers Chautauqua, which gained national recognition in 1917.

He was the author of two books, *Our Civic Image* and *Education, the Basis of Democracy*.

Dr. Cherry died on August 1, 1937, three weeks after a fall from which he suffered head and back injuries. His condition was not considered critical until cerebral meningitis developed.

The bronze statue by the noted Chicago sculptor Lorado Taft was unveiled November 16, 1937. Business in Bowling Green was suspended in respect to Dr. Cherry. It was for this occasion that the chimes were installed, playing an important part in the ceremony.

Hazard, Ky., she was graduated with honors by Western in June, 1942. She was awarded the Bachelor of Science degree.

PHYSICS

Floyd M. Carter will join the Department of Physics in September, coming from eight years' service with the General Electric Co., in Owensboro, Ky. He was a design engineer primarily responsible for the design of computer tubes.

A native of Cloverport, Ky., Carter attended Western from 1937 until 1941, when he entered the U. S. Army. He saw service in the North African Campaign where he was awarded the Silver Star and given a battlefield promotion to first lieutenant.

He was graduated from Western in 1946 with the Bachelor of Science degree. He was awarded the Master of Science degree in physics by the University of Kentucky in 1949. He returned to Western as a member of the Department of Physics in 1949 and served until 1952 when he joined General Electric. While in Owensboro he served as part-time professor at Kentucky Wesleyan College and Brescia College.

GEOGRAPHY AND GEOLOGY

Dr. Monir Saad Girgis will serve as a visiting professor in the Department of Geography and Geology, starting on Sept. 1.

Dr. Girgis has been a senior teacher in the Cairo, Egypt, high schools since 1937. He was awarded the Ph. D. degree by Clark University, Worcester, Mass., in 1937. He received the Master of Arts degree from Cairo University in 1953 and the Bachelor of Arts degree in 1945. He was awarded a diploma in education by Ain Shams University, Cairo, in 1947.

MILITARY SCIENCE

Sgt. John W. Rollins has already been assigned to Western's Department of Military Science by the 20th U. S. Army Corps. He will serve as Instructor in the department and coach the rifle team. He was assigned here from Germany, where he served with the 504th Infantry Regiment.

A native of Monroe, N. C., Sgt. Rollins is a senior parachutist, a ranger, and holds the Expert Infantry Badge.

ECONOMICS AND SOCIOLOGY

Dr. Vernon Martin and Kenneth E. Quindry will become members of the Department of Economics and Sociology faculty in September.

Martin is a native of Benham, Ky., and was awarded the Ph. D. degree by the University of Kentucky in 1961. He received the Master of Arts degree in 1957 and the Bachelor of Arts degree

in 1955 from the University of Kentucky. Since 1956, he has been teaching in the field of social science at Cumberland College, Williamsburg, Ky.

Quindry is now completing work toward his Ph. D. degree at the University of Kentucky. His doctoral dissertation will be published by the Bureau of Business Research this fall.

He has served as a research Associate in the Bureau for the past two years.

A native of Illinois, Quindry was awarded the Bachelor of Science degree by Southern Illinois University in 1957 and the Master of Arts degree in 1958. He taught economics at Northwestern Louisiana State College in 1958 and 1959 before entering graduate work at the University of Kentucky.

FOREIGN LANGUAGES

Jim Wayne Miller will join the Department of Foreign Languages in September after completing the three-year residence requirement for the Ph. D. degree at Vanderbilt University. He entered Vanderbilt in 1960 under a National Defense Fellowship to study German.

Miller was graduated from Berea College in 1958 with the Bachelor of Arts degree. He spent the summer of 1957 in Germany on a visit sponsored by the Experiment in International Living. He taught German in the high school at Fort Knox, Ky., for two years.

ART

Verne K. Shelton, who has been teaching at Western Illinois University since 1957, will join the Department of Art faculty in September.

He was awarded the Master of Fine Arts degree by Drake University in 1952 and the Bachelor of Fine Arts degree in 1950. He taught art in the public schools of Marshalltown, Iowa, and Galesburg, Ill., before joining the faculty at Western Illinois.

CHEMISTRY

James E. House Jr., will join the college's Department of Chemistry on Sept. 1. He is teaching this summer in the Science Training Program for Secondary School Students and resides in West Hall.

House came to Western from the University of Illinois, where he has been teaching physical science in the Division of General Studies and working toward his Ph. D. degree.

He was awarded the Bachelor of Science degree in 1958 and the Master of Arts degree in 1961 by Southern Illinois University. He taught science at Sesser, Ill., High School for one year and was an assistant instructor in General Chemistry at Southern Illinois for one year before going to the University of Illinois.

Western Now Involved In Great Expansion Program

Western is presently involved in its greatest building program ever. With the beginning of school on September 16, there will be evidence of progress on campus other than the Academic-Athletic Building and the 11-story men's dormitory.

Heating Plant

Under reconstruction now is the college Heating Plant. The work is being done by Ward Engineering Co. of Louisville.

The main feature of construction is a new boiler designed to deliver 52,000 pounds of steam per hour. The work also includes the installation of a new stoker, a new coal-handling system, a new ash-handling system, fans, pumps, and piping.

The exterior styling of the building will be designed to blend with that of newer buildings on the southwestern section of the campus.

New Library

Another change will be the enlargement and reconstruction of the physical education building into a library. The new library will have 70,000 square feet of floor space and will provide shelf space for approximately one-half million volumes. The reconstruction will give the college about four times its present library space.

A new entrance lobby on the stadium side of the building will be two stories in height with a glass enclosure at each end and a stone facing on the front. A solar curtain wall will screen the building from the athletic field and will form a background for a small garden. The building will be air conditioned.

The master plan calls for the present library building to be remodeled into administrative offices and class rooms.

Greater Student Center
Reconstruction and enlarge-

ment of the Paul Garrett Student Center calls for expansion on the north end of the building, the inclusion of a second floor across the central portion of the building, and the addition of a third floor. The new floor will contain a ballroom to accommodate 800 persons. The building will be approximately three times its present size when completed.

A theater-type meeting room, which will have a seating capacity of 300, will be located on the second floor at the north end of the building.

The building will be fully air conditioned.

Women's Dorm

A five-story dormitory for women is now under construction in the Kentucky Building grounds at a right angle to State Hall. The approximate cost of the building will be \$800,000. It will house 230

25 Spring Graduates Gain Aid For Advanced Work

Studying in various graduate schools throughout the nation this fall will be twenty-five Westerners, altogether of whom have been awarded over \$35,000 for continued study in graduate school. Thirteen Western men have been admitted to medical and dental schools for the fall of 1963.

Listed below according to departments are the students, their home towns, and the universities which they will attend.

AGRICULTURE

Tommy Amos, Bowling Green; Joe Cowles, Bowling Green; Jimmie Calvert, Aldolphus; and Billy Norman, Tompkinsville. All will study at the University of Kentucky.

BIOLOGY

John Robert Mather, Louisville, appointment to the Oak Ridge Institute of Nuclear Studies; Jack E. Sanders, Cadiz, Summer Research Fellowship at the University of Kentucky; James Davis, Marrowbone, study of microbiology at Tulane University.

BUSINESS

Carolyn Head, Bowling Green, Indiana University.

CHEMISTRY

Mike Jarvis, Central City, NSF Fellowship to study biochemistry at the University of Louisville; Gerald Dooley, Bowling Green, fellowship in genetics at Iowa State University; Richard Cox, Bowling Green, University of Kentucky; and Jerry Dalton, Bowling Green, University of Louisville.

GEOGRAPHY

Charles W. Robertson, Bowling Green, Kansas State University.

INDUSTRIAL ARTS

Jerry E. Shuck, Corydon, San Jose State College, California; Jerry W. Revlett, Leitchfield, graduate assistant in Western's Industrial Arts department; Royce S. Wilson, Leitchfield, graduate

assistant in Western's Industrial Arts department; Charles Earles, Harrodsburg, will study in Western's I. A. department.

LIBRARY SCIENCE

Frances Lester, Lebanon Junction, University of Kentucky.

MUSIC

Robert Schuwchow, Decatur, Alabama, East Carolina College with an assistantship in oboe; David Williams, Drakeboro, opera at the University of Wichita, Kansas.

PHYSICS

Norman Childs, Bowling Green, University of North Carolina; Terrell W. Mayes, Central City, AEC Fellowship to Vanderbilt University.

SOCIOLOGY

Jenice Bilik, Lebanon Junction, Mississippi State University.

ECONOMICS

Robert L. Brite, Bowling Green fellowship at Rutgers University.

ADMITTED TO DENTAL SCHOOL

Ed Bruen, Danville; Charlie Hall, Hopkinsville; Jack E. Sanders, Cadiz; and Jack Frick, Louisville. Frick will study at the University of Kentucky, while the others will go to University of Louisville.

ADMITTED TO MEDICAL SCHOOL

University of Kentucky—Joe Martin Campbell, Joe R. Pugh, Travis B. Pugh III, all of Bowling Green.

University of Louisville—Victor F. Duvall, Big Clifty; Carroll Ross, Beaver Dam; Joe H. Vance III, Lewisburg; James A. Wells, Graham.

Tulane University — James Crews, Tompkinsville.

Expansion

Continued from page 6

women and will be air conditioned.

The new building will be constructed of reinforced concrete with brick finish. A sandwich shop is included in the plans and will be located on the ground floor at the northwest end.

20-Story Building

Soon to be under construction is a 20-story, \$1,800,000 classroom building which will be located at the rear of the Administration Building, the highest point on the Hill.

It is planned that the building, which is to be approximately two and one-half times as high as the water tower, will contain 100 classrooms and offices.

Record Budget

Continued from page 1

as a stenographer in the office of the president, and who served as secretary of the Board of Regents until her retirement March 1, 1963; was honored by the board with the adoption of a resolution recognizing her service to the institution.

The Board of Regents heard a report from President Thompson on the college's expansive building program now underway and plans for the immediate future.

Attending the meeting were Hugh Poland, Guthrie; Dr. Gerald Edds, Calhoun; Douglas Keen, Scottsville; Maxey Harlin, Bowling Green; H. Bemis Lawrence and Owen C. Hammons, Louisville.

Wendell P. Butler, State Superintendent of public instruction and chairman ex-officio of the board, was unable to attend the meeting.

Jack Britt Elected State 4-H Pres.

Jack Britt, sophomore from Bowling Green, was elected president of the Kentucky 4-H Club Federation at the annual 4-H Leadership Conference at the University of Kentucky.

Jack, son of Mr. and Mrs. Jenks Britt was elected to the top 4-H office in the state by some 1,200 club members and leaders attending the 40th annual conference.

With his twin brother, Jenks, also a Western sophomore, Jack has been active in 4-H and FFA work for several years.

Moore-Romans Vows Exchanged

Miss Judith Anne Moore, Dean of Women, became the bride of the Rev. Ralph Hays Romans at Island Baptist Church Saturday, June 22.

The bride is the daughter of Mrs. Arch R. Moore of Island and the late Mr. Moore. Mr. Romans is the son of Mr. and Mrs. Orville Romans, Jackson, Wyo.

After an extended trip West, the couple will reside in Bowling Green.

ROTC Cadets Receive Training Awards

Two Western students were among the 26 outstanding ROTC cadets at seven colleges and universities to receive gold and silver medals from The Chicago Tribune for their military training accomplishments during the last school year.

Receiving a gold medal was Cadet Dallas L. Bowles, from Earlington. Cadet Thomas P. Dunn, from Bowling Green, was awarded a silver medal.

Mercer Is Instructor

Cadet Chester D. Mercer of Bowling Green, has been selected as an instructor for the basic indoctrination course for the members of the class of '67 of the new Air Force Academy, Colorado.

Cadet Mercer, a member of the class of '64 which will graduate next June, is the son of Mr. and Mrs. Chester C. Mercer of Bowling Green. He is a graduate of the Training School, and a former student at Western.

LARRY DYKES, Sports Editor

Western has the distinction of having two OVC Coaches-of-the-Year.

Assistant basketball and tennis coach Ted Hornback was named OVC Tennis Coach of the Year. Tom Ecker, versatile Western track coach, was voted by his fellow coaches as OVC track Coach of the Year.

Hornback, considered by many the dean of OVC tennis coaches, has guided the Topper netmen to 16 Ohio Valley Conference championships in 15 years. This year's squad had a 12-1 record, the only loss coming at the hands of Memphis State.

Ecker brought the Western endermen from a lowly position in track to a second-place finish in the conference. The Topper thinclads finished the season with a 7-2 record. Bill Furgeson of Murray was named runnerup to Ecker in the Coach-of-the-Year balloting.

Moore Top Hitter

Bobby Moore converted his talents from the basketball court to the baseball diamond and led the OVC's Western Division in hitting with a .405 average. Moore and teammate Tom Eddleman were selected on the Western Division All-Star team. Western's John Horton, Denny Jenkins, and Neil DiLorenzo received honorable mention. The Hilltoppers finished the season with a 7-10 won-loss record.

Whitaker Named Outstanding
Larry Whitaker, the number one singles champion (OVC) was

designated the conference's outstanding tennis player of the year.

Whitaker posted a 15-1 record during the current season. Don Meyer, Bill Smith, and Danny Day were the numbers two, three, and four OVC singles champions.

Seasley Caps Track Honors

Jerome Seasley, an Anderson, Ind., freshman, was voted the OVC's Track Man of 1963.

He set a new mark in the 800-yard run with a time of 1:53.7 in the 1963 OVC meet.

Paul Woodall was the third best point-getter in the conference with 102 points for the season. He was followed by teammates Ron Kirk (89) and Bill Moore (82).

Borrone Wins 1st At KPA Meeting

The Park City Daily News and its sports editor, Western alumnus Bert Borrone, AB '41, won first-place honors at the annual mid-summer meeting of the Kentucky Press Association at Kentucky Lake.

Borrone was presented a plaque signifying his "It Says Here" column as the best of its kind among daily newspapers in the state. The Daily News sports page also won the top award for the daily division.

Long noted for his coverage of Hilltopper sports, Borrone has won numerous other awards in the past, including first place for columns in national competition sponsored by the United States Basketball Writers Association.

The Daily News placed first in all-around competition for Dailies' Class V, made up of papers with a circulation of more than 12,500. It placed second in the news photo division and third in both front page and feature story competition.

The Daily News, which prints the Herald, won honorable mention in overall competition among the daily division.

Grid Coaches To Meet

Every Wednesday night, 7:30 to 9:00, a football coaching seminar is held in the football coaches' office, second floor of the Physical Education building.

Coach Jim Feix, Topper backfield coach, said that any high school assistant or head coach is invited to attend these meetings and to participate in discussion.

Discussions concern defensive and offensive formations, drill and teaching techniques, scouting and filming.

The first Wednesday night meeting was attended by nine coaches. Bill Dawson, head coach at Henderson City High School, led discussion on trick and unusual plays.

Refreshments are provided at each meeting.

'63 Grid Outlook Bright

Head football Coach Nick Denes has pointed out that defense may be Western's strong point for the coming grid season.

The Hilltoppers will have the services of two excellent line-backers in Dale Lindsey and John Mutchler, both University of Kentucky transfers. Also holding down key defensive positions will be veterans Joe Bugel, Stan Napper, Harold Chambers, Paul Finneseth, Bob Holman, Bobby Westmoreland, and Gary Kelley.

This could be the Toppers' year to cop the OVC crown, and on paper this could be the best team since the 1950 championship team that won the Refrigerator Bowl title.

However, a great deal of success will depend on the development of quarterbacks Sharon Miller, Joe Bill Campbell, and Dave Rogers. Missing this year will be Jim Daily, a first stringer for the past three years, and Bill Straub.

Miller, a reserve last year, has the speed but lacks the height, so does Rogers. Campbell, a Bowling Green High product and a University of Kentucky transfer, looked good during spring practice.

The running of Jim and John Burt, Carson Culler, Sam Clark, Dave Peak, Elmer Murray, and

Lindsey should give the Hilltoppers' ground attack its greatest depth and versatility in some time.

The punting department also has excellent depth. Ernie Hall, Rex Edwards, Bobby Huffman, and Jerry Matthews, all seem capable of doing a good job, although they have not yet been tested under fire.

The Toppers will be on the road for their first two games, facing

Southeast Missouri in their opener on September 14 and then traveling to Tampa, Florida to face Tampa University before returning to Bowling Green for their home opener against East Tennessee on September 28.

Evansville College will be the homecoming foe on October 26. The Toppers last met Evansville in 1955. In the 15 games against the Indians, the Tups have won 10, lost three, and tied two.

FORMER HERALD EDITOR IS KPA WINNER—Bert Borrone, Park City Daily News sports editor, came in for recognition recently at the Kentucky Press Association meeting at Kentucky Lake. Ray Gaines, right, Daily News editor, is shown with Borrone, admiring the plaques won for the best sports page and the best sports column, "It Says Here", in the daily division of KPA competition. Borrone edited the Herald in 1940.

In Softball Loop

Team Of Faculty Members Gain 9-2 Cinderella Tally

A team of Western faculty and staff members has surprised almost everyone concerned with the City Fast Pitch Softball League. Under the sponsorship of the Coca-Cola Bottling Company, the first-year club has won nine games while dropping only two decisions. With this record, the team presently stands one game behind the league leader in third place of the ten-team league.

Appropriately labeled the Coca-Cola Pedagogues, the Westerners, managed by Dr. Allan G. Anderson, head of the Mathematical department, have been averaging eight runs per game. The two losses came during the semester break when several regulars, including the starting pitcher, were out of town. Behind the pitching of Clyde Bates, Economics and Sociology department, the team has compiled the following record:

Coca-Cola 7, Seven-Up 6
Coca-Cola 14, L. F. Strassheim 2
Coca-Cola 11, Pepsi Cola 8
Coca-Cola 4, Chumney's Market 11
Coca-Cola 0, Jagers 7
Coca-Cola 9, M. C. Hinton 4
Coca-Cola 9, Cary's Servicecenter 8
Coca-Cola 7, Link's Barber Shop 0 (forfeit)
Coca-Cola 9, Seven-Up 5
Coca-Cola 5, Leachman Motors 3
Coca-Cola 9, L. F. Strassheim 2
The starting line-up is Clyde Bates, pitcher; Thomas Sheppard, catcher; Ed Given, first base; Ed Ewing, second; Jimmie Feix, third; Joseph Boggs, shortstop;

Jim Greer, left field; Bernard Madison, center field; and Roy Hedges, right field. Reserves are Hugh Agee, outfield; Dr. Anderson, outfield; Leon Czikowsky, third base; Tom Ecker, infield and outfield; John Lee, catcher and utility; Jim Matthews, infield; Griff Roberts, outfield; Gayle Shields, pitcher; and Ronnie Sutton, outfield and first base.

The Pedagogues have five regular league games to be played. In addition to these games the team will compete in the post-season league tournaments and the Franklin Invitational Tournament. The remaining schedule is as follows:

Thursday, July 4 . . . Chumney's Market
Monday, July 8 . . . Jagers
Saturday, July 6 . . . Franklin Invitational at Franklin
Wednesday, July 10 . . . M. C. Hinton
Monday, July 22 . . . Cary's Servicecenter
Thursday, July 25 . . . Link's Barber Shop
All regular league games are played at C. W. Lampkin Park, Field No. 1.

Registration

Continued from page 1

noon, and continue to noon, Wednesday, December 2 Christmas Holidays run from noon, Wednesday, December 18, to 8:00 a.m., Thursday, January 2. The first semester officially ends Thursday, January 30.

GuepeNamed Commissioner

A new era for Ohio Valley Conference sports began on July 1 when the O.V.C. Commissioner's office opened its doors for business. Art Guepe, former head football coach at Vanderbilt University, is the first commissioner in the 15-year history of the conference. His office is in the 1906 West End Building, Nashville. The Commissioner and his staff will handle the supervision of officials, conference publicity, and numerous other tasks that have been the responsibility of the league's individual schools during past years.

DR. ALBERT BURKE — Speaker of the second Rodes-Helm Lecture Series was Dr. Albert Burke, well-known scientist, economist, and expert on world affairs. Topic of Dr. Burke's lecture was "Education for What?"

DR. ERIC RUST—"The Christian and the Changing World" was the theme of Religious Emphasis Week, November 18-21. Dr. Eric Rust, professor of Christian Philosophy, Southern Baptist Theological Seminary, Louisville, was speaker.

MERGER—Officials of Western State College and Bowling Green College of Commerce emerged from a press conference in which they announced the business school would merge with Western.

TALISMAN ROYALTY—Seniors Marilyn Cates and Warner Caines were crowned Queen and King of the 1963 Talisman Ball. Music for the annual event was provided by the Jimmy Dorsey Orchestra under the direction of Lee Castle.

HEAVY DAMAGE was inflicted on the Western agriculture pavilion by the blaze in March. Estimates of the damage to the pavilion, located on the south section of the campus, were between \$75,000 and \$100,000. Four companies of city firemen, students and passers-by fought the blaze for about five hours.

Review '62 and '63

TO THE VICTORS . . . Western's president, Kelly Thompson, left, Robert G. Cochran, director of Public Relations, center, and Herbert J. Smith, acting regent of Ogden College, look over the trophies presented to the College by campus organizations on the annual Awards Day. A major portion of the trophies were won by the Debating Team, the Dairy Judging Team, and the Pershing Rifle Drill Team.

NATIONAL CHAMPS—Organized only this school year, Western's pistol team was victorious in the First Rocky Mountain Invitational Postal Pistol Match, sponsored by the Pershing Rifles Headquarters at the University of Colorado, Boulder, Colo. Over 140 PR companies throughout the United States and Puerto Rico participated in the match.

SENIOR DAY LUNCHEON—Shown above is a portion of the over-flow crowd which attended the Annual Senior Day festivities in May on the Western campus. More than 3,000 high school seniors from 62 schools were present.

"OUTSTANDING KENTUCKIAN for 1962" is Western graduate Charlie Vettiner. The award is presented by the Kentucky Press Association.

MVP—Lee Murray, senior captain from Russellville, Ala., won the most valuable player award for the second straight year and was also named best defensive lineman. In speaking of Murray, Coach Nick Denes called him, "the finest captain I have had in 33 years of coaching."

Cherry Hall Contributes To The Spirit Of Western

By Sandra Stuart

Strolling across campus, I marvel over the many changes which have occurred in the past few years. New buildings, new people. . . . With all the newness one might receive an impression of Western being a young college. This, however, would be a misconception, and just ahead I see a figure who is here to prove it.

"Good day. Would you please tell me your name?"

"Certainly, people around here call me Cherry Hall."

"Cherry Hall? That is rather a strange name. Does it have a certain significance?"

"You might say that it does. Let me give you some background material so you may be more understanding of the circumstances under which I was named."

"Old Potter College served education long and well. It was constructed in 1889. As you have probably realized, it came into being when public education was provided only through grammar schools. High schools supported by the county were still 19 years away. If people were to have an academic education it was necessary that private schools furnish it. In its generation-long existence, Potter College drew to its doors girls from all parts of the country."

"In 1909, the state bought the Potter College property for the new home of Western. In February, 1911, when the Administration Building was ready for occupancy, the entire school was moved from the present location of Western's Department of Business and Government to the Hilltop."

"The building which had housed Potter College now became Recitation Hall. From that time until it was torn down it furnished a major portion of classroom area for the school."

"As the school grew, classroom space was needed so badly that classes were conducted in the old barracks where the Training School now stands. Tents were even stretched in by the Old Fort. By degrees old Recitation Hall was surrounded by permanent structures until it looked like a poor relation."

"Thus, you may realize that I was the result of a dream — one that extended over many years. You see, it had been the desire of Dr. Henry Hardin Cherry that a magnificent classroom building enhance the Hill. For awhile this was rather impractical as well as improbable."

"Early in 1935, application was made to the Public Works Administration for an allotment so construction could begin. At first they were turned down, and it was not until 1936 that federal aid was finally given. It was in this year, succeeding the razing of Recitation Hall, that my construction was begun."

"There is another factor about my name which might be of interest to you. When plans were first begun B. J. Borron, a member of the Board of Regents, presented the resolution providing for my name in honor of Dr. Cherry. His statement listed Dr. Cherry's association with the col-

lege since the founding of the institution and paid tribute to his many years of work. It was voted that a copy of the resolution, along with other articles, be sealed in my cornerstone. The act was a complete surprise to officials of the school who were excluded from the conference room."

"As was expected, by all who knew him, Dr. Cherry balked at the idea of having me named for him. Because of this modest attitude, upon my completion there was no name over my facade, and Dr. Cherry for as long as he lived referred to me as the 'new' Classroom and Laboratory Building."

"Tell me something of your architecture and construction."

"Captain Brenton B. Davis, a Louisville architect, made exhaustive study as to the arrangement of rooms, light, heat, sanitation, and ventilation."

"He had previously designed other landmarks on campus. The Administration Building was his first one. It was followed by the Physical Education building, stadium, Industrial Arts building, library, President's home, and Snell Hall."

"I was his last endeavor on campus, and when completed I represented the most modern ideas in college classroom architecture. I am of fire proof construction, built of white oolitic limestone, and in classical design to conform with the then 'newer' buildings on campus. As can be observed, my main design is Grecian."

"Contractors who participated in my construction were the George H. Rommel Company and Struck Construction Company, both of Louisville."

"The cornerstone program occurred Tuesday, October 27, 1936, and was broadcast over WHAS radio of Louisville. This was a great day for Westerners."

"A 15-minute band program preceded the ceremony, over which Dr. Cherry presided. George H. Sager Jr., State Director of Public Works Administration, and Dr. Cherry placed the stone while Dr. Earl Moore described the proceedings to the radio audience. A fanfare by the band announced the actual laying of the stone."

"When were you completed?"

"I was completed and occupied in the fall of 1937, and at that time I took care of 85 per cent of the school population. In fact, I carried the bulk of the population until the construction of the Kelly Thompson Science Hall."

"Can you give an idea of the arrangement changes which have

Continued on page 12, column 1

CROWNING the hilltop campus of Western is Henry Hardin Cherry Hall. The history of this structure, which is still the main classroom building, is colorful and gives much insight into the history of Western. In the foreground can be seen the statue of Dr. Henry Hardin Cherry, Western's first president.

Cherry Hall Adds Much To Spirit

Continued from page 11

been made since you were first constructed?"

"In 1937, the Post Office and book store were in the East wing. Since then they have been moved to the West wing where their capacity is greatly increased. Replacing them in the East wing is a modern lecture room and a number of attractive classrooms.

"The Art department, previously on the third floor, now occupies the ground floor of the center wing. The Chemistry and Physics departments which previously occupied this area are now located in Thompson Hall.

"The Dean's Office, which was on the second floor of the Administration Building and then on the first floor in my front wing, has since been moved to my West wing where it is now located.

"One facility of which I am proud is the fine set of chimneys which was installed in my tower when I was built and was replaced about five years ago by the College Heights Foundation."

"I can understand your pride. I, too, consider the chimneys an asset to the campus."

"Other than the rearrangement of various classrooms and departments, have you had many alterations?"

"Many offices and classrooms have been altered and remodeled to take care of the expanded enrollment and faculty growth. However, it was not until 1960, that my greatest alteration was made."

"And what was this alteration?"

"In original planning there were not enough entrances and exits. In 1960, because of full utilization, a traffic problem was encountered inside my corridors. At this time a new entrance was added to my West wing. It opens onto the Fort from the second floor. At the rear of the East wing was installed a fire escape which permits access from the second and third floors."

"You might also be interested in knowing that the new service entrance has been constructed in my rear court to serve the Post Office and book store."

"Recently I, in my entirety, was redecorated. At this time I had a new roof surface applied."

"As you can observe, the college takes very good care of me — never allowing me to become dilapidated as one might expect

would happen to an older campus building."

"You have been both informative and interesting, Cherry Hall. Do you have anything else to tell me before I leave?"

"Yes, I have. For almost three decades I have graced this hilltop. In these years I have observed boys and girls enter over this threshold, and walk out four years later as men and women with brilliant futures. Some have been more fortunate than others, but by me every one of these individuals has been influenced. Our motto here at Western, 'The Spirit Makes the Master,' is one of which I am proud because I believe that I have contributed something of value to this Spirit which makes Western which makes the Master."

Continuing my stroll across campus, I really have something to think about. Just how much am I contributing to that Spirit which makes Western which makes the Master.

Grad Named 'Faculty Member Of The Year'

Named 'Faculty Member of the Year' at Florence State College in Florence, Ala., was Mrs. George H. Maness. The former Maurine Sublett, AB '41, was voted the very tops among the college's 113 faculty members.

Mrs. Maness, who holds the Ph.D. from University of Wisconsin, is now an associate professor of History, but she went to Florence State to become Dean of Women in 1948, as Miss Sublett.

She resigned her position early in 1954, when she became Mrs. Maness. In 1956, she rejoined the faculty as a teacher of history. Mrs. Maness has for several years been chairman of the Religious Emphasis Week Committee. In her spare hours she works at a project of compiling a history of the First Baptist Church of Florence.

Both professors and students were in complete agreement on the selection of Mrs. Maness as Florence State's first 'Faculty Member of the Year.'

Nominations were made by student groups. These were screened by a committee appointed by the Inter-Presidents Council. Finally the entire Inter-Presidents Council balloted to select the top choice.

Commander John B. Thomas, Jr., AB '34, USN, was presented a Freedom Foundation medal on May 31 by Lt. General Verdi B. Barnes, USA, Chief of Staff, U.S. Pacific Command.

Cmdr. Thomas, a former editor of the Herald, won this award in the national contest among Armed Forces personnel conducted by Freedom Foundation, Valley Forge, Pa., for letters on the subject, "My Freedoms and My Responsibilities."

He received an M.A. degree in English from Indiana University in 1940, and has done graduate work in English and languages at George Washington University, and Georgetown University.

Thomas and his wife, the former Rena Belle Angle, AB '35, and their children, John and Margaret, live at 91 McGrew Loop Aiea, Hawaii.

Guy Gene McLemore, BS '49, has been awarded \$4,000; tuition, and fees for a year of graduate study at Cornell University.

McLemore is one of six top high school science and mathematics teachers named throughout the country to residencies at Stanford and Cornell Universities.

Sponsored by the Shell Companies Foundation, Incorporated, the residency program is designed to acquaint selected teachers with new curriculums and teaching materials produced by national committees on science and mathematics teaching. In addition, McLemore and other selected teachers will do advanced work in their subjects and gain experience in research techniques and in supervision.

McLemore received an MA degree from Indiana University and is a Chemistry teacher at Hughes-Kirkpatrick high school in Beechmont, Ky.

Army Capt. Jerald L. Rose, BS '56, completed a 35-week officer career course at The Infantry School, Fort Benning, Georgia, May 21.

Captain Rose, son of Mr. and Mrs. Robert Rose, of Greenville, received instruction in the duties and responsibilities of company and battalion commanders, and battalion and brigade staff officers.

Mr. and Mrs. John Edward Kemker now reside at 5113 Mimosa Lane, Bellaire 101, Texas. They have three children: Sara, 4 yrs.; Carol, 1½ yrs.; and John Edward III, 4 months.

Mrs. Kemker, the former Charlotte Harwood of Bowling Green, received her A.B. degree in 1957 from Western.

During a recent Army Training Test in Korea, Second Lieutenant Duncan E. Sanford led his Reconnaissance Platoon to the honor of being selected the "Best Reconnaissance Platoon in the 1st Cavalry Division 1963."

Sanford, BS '62, is the son of Mr. and Mrs. Lucian E. Sanford, Franklin. He is stationed with Troop "C" 1st Reconnaissance Squadron, 9th Cavalry, 1st Cavalry Division, Korea. This is the only United States Army front-line in the world. Its mission is to separate North and South Korea.
